What were the strong points of the session?

- FEPIS sharing experiences. Good questions from rest of the group.
- Motivated, educated, knowledgeable person – spread throughout the nation.
- I was really excited to hear about everyone's experiences with their teams last year. This was so valuable for our group to discuss today. It was also important to see Christina's presentation. She did a very good job communicating her findings.
- Very useful, especially as I look forward to a possible team. Nice punt, too.
- Very well organized and presented. Handout helpful. Very relevant info.
- Good comments from experienced folks who have been there with the program.
- Good speaker. Good info on your project and SCA program.

- Excellent discussion. In general lots of these examples from parks need to be shared with FMO's.

What were the weak points of the session and how would you change them for the better?

Other comments:

- Program evaluation very important with big money in NFP.
